Impact Statements

Resolution:

Transparency in State Treasury Investments

### **Legal Impact**

No legal impact. This resolution establishes priorities for future political advocacy.

### **Equity & Inclusion Impact**

This resolution as a positive equity impact. The goal is to remove barriers members experience in accessing and engaging with their union digitally. This resolution will create more equitable access to our union, particularly for lower income and rural members, including indigenous and tribal communities.

### **Financial Impact**

No impact

### **Political Impact**

SEIU members strongly believe that climate change is a crisis affecting our state and that we have to act now to mitigate the harmful impacts it will have on future generations. Our state invests billions of our members' retirement dollars in firms who are contributing to the climate crisis, and we deserve transparency around these investments. This resolution will reiterate our commitment to organizing and policy work related to climate change and pave the way for our union to join coalition efforts related to transparency.
